

INVESTING IN RESEARCH!

Native American Environment, Health & Community Faculty Cluster Hire

The University of Wisconsin–Madison is seeking to fill three faculty positions as a part of a campus-wide cluster hiring initiative to add to the vibrant community of academic researchers focused on research at the nexus of environment, health, and community in the Native American context. Participating units in the three-faculty cluster hire include the School of Nursing, the Nelson Institute for Environmental Studies, and the School of Human Ecology.

The successful candidate in the **School of Nursing** will be expected to develop and maintain a collaborative, interdisciplinary, innovative, and highly visible research program. The successful candidate's research program should generate new knowledge about chronic disease prevention and management applicable to Native American communities. Research programs should be consistent with national Native American nursing, public health, medicine, behavioral health, mental health, health care, or health systems priorities for extramural research funding.

Position #95947

The successful candidate in the **Nelson Institute for Environmental Studies** will conduct research and participate in teaching that addresses environmental components essential to a healthful and culturally rich environment. A large range of disciplinary background will be considered, including, but not limited to: population health, public health, demography, toxicology, geography, anthropology, ecology, and soil, air, and water sciences.

Position #96076

The **School of Human Ecology** seeks an action-oriented scholar whose research focuses on Native American youth, their families, and communities. While the specific area of research for this position is flexible, the candidates research should focus on Indigenous peoples with a particular focus on Wisconsin Communities (both urban and sovereign nations).

Position #96242

School of Nursing
UNIVERSITY OF WISCONSIN-MADISON

At the University of Wisconsin–Madison, nurses lead.

The University of Wisconsin–Madison School of Nursing was established in 1924. It is the leading nursing research institution in Wisconsin.

As an integral academic partner situated in the health sciences sector of campus with the School of Medicine and Public Health and the School of Pharmacy, the School of Nursing collaborates with scientists and renowned researchers across the UW–Madison campus, the nation, and the world. The school’s research is translational in nature and grounded in practical application—the work being done has an impact on Wisconsin’s communities, hospitals, clinics, schools, and homes.

The school has an enrollment of more than 1,000 students and offers the Bachelor of Science in Nursing (BSN), Doctor of Nursing Practice (DNP), and Doctor of Philosophy in Nursing (PhD) degrees, as well as continuing education and certificate programs.

Excellence through diversity is our shared commitment.

The UW–Madison, founded in 1849, is one of the nation’s largest and most comprehensive research universities. It is comprised of 13 schools and colleges that offer 232 undergraduate majors and certificates, as well as 250-plus master’s, doctoral, and professional degree programs.

UW–Madison is recognized as the flagship campus of the UW System. Its research mission is deeply ingrained with the traditions of the Wisconsin Idea and academic freedom. The Wisconsin Idea is one of the longest and deepest traditions surrounding the University of Wisconsin and signifies a general principle that education should influence people’s lives beyond the boundaries of the classroom.

RESEARCH STRENGTHS

- Aging
- Children & families
- Health disparities
- Health systems & care delivery
- Population health
- Symptom science

DEGREE OPTIONS

Bachelor of Science in Nursing

- Traditional (2-year)
- Accelerated (1-year)
- Online (RN to BSN)

Doctor of Nursing Practice

- Adult/Gerontology
- Adult/Gerontology Acute Care
- Adult/Gerontology Primary Care
- Pediatric Primary Care
- Psychiatric Mental Health

Doctor of Philosophy in Nursing

- Early Entry option
- Post-Bachelors
- Post-Masters

CERTIFICATE PROGRAMS

- Clinical Nurse Specialist
- Nurse Educator
- Psychiatric Mental Health
- School Nursing
