

[aastec.net](http://aastec.net)

## *Our Mission*

To promote American Indian health and well-being by assisting tribes in building public health capacity and reducing health disparities.

## *About Us*

Albuquerque Area Southwest Tribal Epidemiology Center (AASTEC) is operated under the authority of its parent organization, the Albuquerque Area Indian Health Board, Inc. The AASTEC serves the 27 American Indian Tribes, Bands, Nations and Pueblos in the Indian Health Service Albuquerque Area.

## *What We Do*

- ◆ Community-Based Participatory Research
- ◆ Training and Capacity Development
- ◆ Epidemiology and Surveillance
- ◆ AI/AN Student Development
- ◆ Community Health Assessments
- ◆ Public Health Data Improvement and Access
- ◆ Database Development and Management
- ◆ Program Evaluation

ALASKA NATIVE  
TRIBAL HEALTH  
CONSORTIUM

EPIDEMIOLOGY CENTER

*Using Data to Improve Health.*

[anthctoday.org/epicenter](http://anthctoday.org/epicenter)

## *Our Mission*

To contribute to the wellness of Alaska Native people by reporting health data, providing technical assistance and supporting initiatives that promote health.

## *About Us*

We are located within the Alaska Native Tribal Health Consortium's (ANTHC) Community Health Services division. ANTHC, along with regional Tribal health organizations, comprise the Alaska Tribal Health System, which has the primary goal of improving the health of Alaska Native people. The Alaska Native Epidemiology Center provides public health and epidemiologic services to Alaska Tribal health organizations and other Tribal entities.

## *What We Do*

- ◆ Information Sharing
- ◆ Surveillance and Applied Studies
- ◆ Technical Assistance and Training
- ◆ Disease Prevention and Health Promotion

*Improving American Indian and  
Alaska Native Health in California.*

[crihb.org/ctec](http://crihb.org/ctec)

## *Our Mission*

To improve American Indian health in California to the highest level by engaging American Indian communities in collecting and interpreting health information to establish health priorities, monitor health status, and develop effective public health services that respect cultural values and traditions of the communities.

## *About Us*

The California Tribal Epidemiology Center (CTEC), housed within the California Rural Indian Health Board, Inc., was established in 2005 to assist in collecting and interpreting health information for American Indian/Alaska Natives in California. CTEC has Data Sharing Agreements with 34 tribal health programs that serve over 90 tribes throughout California.

## *What We Do*

- ◆ Health Priorities Assessments
- ◆ Community Health Assessments
- ◆ Data Access/Analysis/Collection
- ◆ Project Evaluation
- ◆ Training and Technical Assistance

*Working to enhance the quality  
of life for all Native people.*

[glitc.org/programs/epi-home](https://glitc.org/programs/epi-home)

## *Our Mission*

To support Tribal communities in their efforts to improve health by assisting with data needs through partnership development, community based research, education and technical assistance.

## *About Us*

The Great Lakes Inter-Tribal Epidemiology Center (GLITEC) is a program of the Great Lakes Inter-Tribal Council, Inc., headquartered in Lac du Flambeau, Wisconsin. GLITEC has been in operation for over 20 years, originating in 1996. GLITEC serves communities in the Bemidji Indian Health Service (IHS) Area, which is home to thirty-four federally-recognized Tribes, three IHS Service Units, and four Urban Indian Health programs in Michigan, Minnesota, Wisconsin, and Chicago.

## *What We Do*

- ◆ Epidemiology Technical Assistance
- ◆ Surveillance
- ◆ Community Assessments
- ◆ Capacity Building
- ◆ Data Collection and Analysis
- ◆ Strategic Planning
- ◆ Public Health Accreditation Preparation Support
- ◆ Evaluation
- ◆ Coordination with Tribal, Federal, State, Regional, Local and National Partners

*So That The People May Live  
Hecel Oyate Kin Nipi Kte.*

[gptec.gptchb.org](http://gptec.gptchb.org)

## *Our Mission*

Provide leadership, technical assistance, support and advocacy for the 18 tribal nations and communities serviced by the Great Plains Area IHS in order to eliminate the disparities in health that currently exist for tribal peoples within the four-state region of South Dakota, North Dakota, Nebraska and Iowa.

## *About Us*

The Great Plains Tribal Epidemiology Center was founded in 2003 as a core component of the Great Plains Tribal Chairmen's Health Board. GPTEC serves 17 Tribes and 1 Service Area in the Great Plains IHS Area (South Dakota, North Dakota, Nebraska and Iowa).

## *What We Do*

*Improving American Indian  
Health and Well-Being.*

[itcaonline.com/tec](http://itcaonline.com/tec)

## *Our Mission*

To build Tribally-driven public health and epidemiologic capacity among Tribes in the Phoenix and Tucson Indian Health Service Areas by assisting Tribes with health surveillance, research, prevention, and program evaluation for planning and policy decision making in order to improve community health and wellness.

## *About Us*

The Inter Tribal Council of Arizona, Inc. (ITCA) Tribal Epidemiology Center (TEC) is one of 12 TECs in the United States. ITCA is a non-profit organization and the TEC is funded, in part, by the Indian Health Service (IHS). ITCA TEC serves tribes in Arizona, Nevada, and Utah.

## *What We Do*

- ◆ Tribal Community Health Profiles
- ◆ Epidemiologic Study Design and Survey Construction
- ◆ Health Data Collection, Analysis, and Presentation
- ◆ Health Program Planning and Evaluation
- ◆ Coordination of Disease Outbreaks or Disease Clusters
- ◆ Customize Culturally Appropriate Public Health Materials
- ◆ Training

NORTHWEST  
PORTLAND  
AREA  
INDIAN  
HEALTH  
BOARD  
TRIBAL  
EPIDEMIOLOGY  
CENTER

*Indian Leadership for Indian Health.*

[npaih.org/epicenter](http://npaih.org/epicenter)

## *Our Mission*

Collaborate with Northwest American Indian Tribes to provide health-related research, surveillance, training and technical assistance to improve the quality of life of American Indians and Alaskan Natives (AI/ANs).

## *About Us*

Since 1997, Northwest Tribal Epidemiology Center (NWTEC) has administered a number of successful health research and surveillance projects serving the Northwest Tribes. NWTEC is conducted and administered by the Northwest Portland Area Indian Health Board, a non-profit tribal advisory board established in 1972 to advocate and provide technical assistance for the 43 Federally recognized tribes of Idaho, Oregon, and Washington.

## *What We Do*

- ◆ Disease Surveillance
- ◆ Health Status Prioritization
- ◆ Community Health Profiles for Tribal Communities
- ◆ Tribal Health Research and Program Evaluation
- ◆ Improve Quality and Accuracy of AI/AN Health Data

OKLAHOMA AREA  
Tribal Epidemiology Center

*Promoting Healthy Communities,  
Serving and Strengthening all Tribal Nations.*

[spthb.org](http://spthb.org)

## *Our Mission*

To improve the health of American Indian/Alaskan Natives in Kansas, Oklahoma and Texas, by providing public health services in epidemiology, data management, data analysis, training, health promotion/disease prevention, and research through outreach and creative partnerships.

## *About Us*

The Oklahoma Area Tribal Epidemiology Center (OKTEC) service area includes Kansas, Oklahoma, and Texas. The OKTEC serves the 44 federally recognized Tribes in the Southern Plains region. As a Tribal public health organization, the OKTEC works with Tribes, Tribal organizations, and urban Indian clinics to improve the health and well-being of our Native communities. The OKTEC is dedicated to the AI/ANs in the Southern Plains and works to improve health outcomes and public health infrastructure and capacity in our Tribal communities. We value, believe in, and aspire to provide quality public health support, in all aspects, to our most precious assets: our Tribal nations.

## *What We Do*

- ◆ Improve the Quality and Access to AI/AN Health-Related Data
- ◆ Data Analysis and Information Dissemination
- ◆ Public Health Training
- ◆ Technical Assistance
- ◆ Programmatic Planning and Evaluation
- ◆ Community Health and/or Needs Assessments

*Tribal Public Health solutions that honor the  
Indigenous health knowledge and traditions  
of the Tribes of Montana and Wyoming.*

[rmtlc.org/tribal-epidemiology-centers](https://rmtlc.org/tribal-epidemiology-centers)

## *Our Mission*

To work with American Indian Nations in Montana and Wyoming to build community-driven public health solutions, epidemiological capacity and creative partnerships that address Tribal public health priorities.

## *About Us*

The Rocky Mountain Tribal Epidemiology Center (RMTEC), a part of the Rocky Mountain Tribal Leaders Council, has been serving the Rocky Mountain region since the Fall of 2006. RMTEC has established partnerships with Tribes, Tribal Colleges and Tribal Health Departments, the Montana Department of Health and Human Services, the Wyoming Department of Health, numerous universities and a few private contractors to address the public health priorities of the Tribes. RMTEC serves the 10 Tribes that call Montana and Wyoming home – a thriving American Indian (AI) population of approximately 77,000.

## *What We Do*

- ◆ Tribal Public Health Communication
- ◆ Community Health Profiles & Data Reports
- ◆ Tribal Health Prioritization & Strategic Collaborations
- ◆ Public Health & Epidemiological Trainings
- ◆ Evaluation Assistance
- ◆ Data & Technical Assistance Requests

Urban Indian  
Health Institute

A Division of the Seattle Indian Health Board

*Decolonizing data, for indigenous people,  
by indigenous people.*

[uihi.org](http://uihi.org)

## *Our Mission*

Decolonize data, for indigenous people, by indigenous people.

## *About Us*

Urban Indian Health Institute (UIHI) is one of 12 Tribal Epidemiology Centers (TECs) in the United States and the only one that serves all Urban Indian Health Programs across the nation. UIHI recognizes research, data, and evaluation as indigenous values. They utilize the strengths of western science and are grounded in traditional ways of knowing as they conduct research and evaluation, collect and analyze data, and provide disease surveillance.

## *What We Do*

- ◆ Research and Evaluation
- ◆ Collect, Analyze, and Disseminate Data
- ◆ Provide Disease Surveillance
- ◆ Workforce Development
- ◆ Program Evaluation
- ◆ Develop Informational Materials
- ◆ Technical Assistance
- ◆ Training

*Because there is strength in unity.*

[usetinc.org/tribal-epidemiology-center](https://usetinc.org/tribal-epidemiology-center)

## *Our Mission*

United South and Eastern Tribes, Inc. (USET) is dedicated to enhancing the development of federally recognized Indian Tribes, to improving the capabilities of Tribal governments, and assisting the USET Members and their governments in dealing effectively with public policy issues and in serving the broad needs of Indian people.

## *About Us*

USET is a non-profit, inter-tribal organization that collectively represents its member Tribal Nations at the regional and national level. USET includes 27 of the 36 federally recognized Tribal Nations that reside with the Indian Health Service Nashville Area. USET operates through various workgroups and committees, and provides a forum for the exchange of ideas and information amongst Tribal Nations, agencies, and governments.

## *What We Do*

- ◆ Program Planning and Implementation
- ◆ Chronic Disease Surveillance
- ◆ Building State and Tribal Partnerships
- ◆ Support Public Health Capacity Building
- ◆ Building Tribal Capacity and Infrastructure
- ◆ Provide Grant Support, including Writing, Data Collection, and Management
