

# The 10 Essential Public Health Services and Tribal Epidemiology Center (TEC) Activities

A task force of experts developed this framework to describe the activities needed to protect and promote the health of all people in communities.

Funded by the CDC, the Tribal Epidemiology Center Public Health Infrastructure Program (TECPHI) supports TEC activities to deliver the 10 EPHS and contribute to the overall health of AI/AN people nationwide. The data around the figure shares the TEC collective progress made in the first year of TECPHI. The EPHS associated with the data is indicated by the numbered circles.

**377** <sup>8</sup>

TECPHI supported skilled and diverse staff

**8 of 11** <sup>10</sup>

TECs have a strategic plan

**34** <sup>1</sup>

T/TO/UIO community health assessments

**18** <sup>2</sup>

Data quality, improvement, or linkage projects

**112** <sup>3</sup>

Tailored communication products to meet the unique needs of T/TO/UIOs

**921** <sup>4</sup>

Established or maintained partnerships

Data sharing agreements with T/TO/UIOs and other entities

**291** <sup>1</sup> <sup>4</sup>

**112** <sup>9</sup>

Technical publications communicating public health implications

**45** <sup>1</sup> <sup>9</sup>

Implemented electronic data collection, management, etc., systems

**107** <sup>8</sup>

Workforce development planning activities

**933** <sup>8</sup>

Trainings in public health topics

**23,205** <sup>8</sup>

Individuals attended TEC- sponsored trainings
